

Rock Phosphate

GUARANTEED ANALYSIS	
Total Phosphate (P2O5)	28%
Phosphate Available (P2O5)	14%

Without enough phosphorus, plants and trees struggle to photosynthesize, transfer energy, and fully develop roots and stalks. Trees will exhibit discolored leaves and stunted growth.

Rock Phosphate applications help trees reach maximum flower and fruit development and help plants sustain achieve proper development and enhance crop production.

Rock Phosphate not only provides short-term phosphorus but also helps sustain long-term soil health and crop growth.

We proudly have one the highest grade organic-approved rock phosphate source available. It contains 28% total P2O5, 30% calcium, plus a full spectrum of other minerals (S, Fe, Mg, K, Si, Zn, etc.) More phosphorus in less volume results in easier handling, lower application rates and costs.

General Application:

Light Applications:

Apply 7 lbs per 1,000 square feet, 1/4 cup per plant, or 1 lb per 20 foot row.

Normal Applications:

Apply 12 lbs per 1,000 square feet, 1/3 cup per plant, or 2 lbs per 20 foot row.

Heavy Applications:

Apply 25 lbs per 1,000 square feet, 1/2 cup per plant, or 3 lbs per 20 foot row.

Store in a cool, dry dark place

Net content: 50 lbs /22.68 kg
