

Seaweed Extract

GUARANTEED ANALYSIS	
Total Nitrogen (N)	1%
Soluble Potash (K ₂ O)	17%

Guaranteed through MWL ME PROC 26 analysis method in USA authorized laboratories.

Water soluble seaweed is extracted from fresh kelp (alga), *Ascophyllum nodosum*, through a very specialized process without using any chemicals at all. It is 100 % natural and widely used as organic in many places.

It is natural, non-toxic, harmless and non polluting, and rich in microelements. It has neither chemicals nor synthetic hormones added.

It is suitable for all crops and applications including field crops, potting soil, vegetable, flower gardens, orchards and turf grass. Promotes balanced growth of crops, boosts the capacity of immunity and resistance, improves crop quality and increases yield.

General Application

For root irrigation: apply 1.4 kg/ha twice a month throughout the year.

For foliar irrigation: apply 1kg/ha 4 to 5 times during the cycle.

Please contact us for information concerning the raw materials composed in this product.

Suitable for organic farming according to EC and/or NOP regulation(s)
